ALASKA BALLOTING, TOO

Most of Contests Without
Political Significance

BY UNITED PRESS
Four states and the territory of Alaska held primary elections today as a prelude to next Tuesday's Maine election, time-honored political barometer of presidential elections. Today's primaries appeared without political significance, though partisan forces may make use of them if the results are right. The primaries were being held in Washington, Colorado, Vermont and South Carolina.

Test For Talmadge
Tomorrow, the Georgia primary will provide a new test of New Deal sentiment in the deep south. There Gov. Eugene Talmadge, campaigning as a anti-New Deal Democrat, seeks the senatorial nomination over Richard B. Russell, Jr., the incumbent and staunch New Dealer.

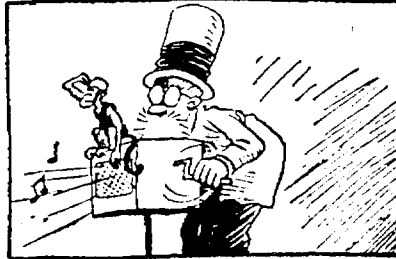

Washington voters choose party nominees for state and congressional offices from 1,000 candidates. In Colorado Republicans and Democrats choose gubernatorial and senatorial candidates. In Vermont voters nominate Republican and Democratic candidates for governor, congressman, and minor state offices. In South Carolina, Democratic voters decide between the high candidates in a recent primary, in a "run-off" primary. In Alaska, voters choose nominees for territorial offices and elect a delegate to congress.

KISS FEUD ENDS SCHOOL CLASSES IN CHICAGO AREA

CHICAGO, Sept. 8.—(UP)—The children of Union Ridge school district in Norwood township didn't start to school as others did today. They romped in their own back yards while their parents argued about a "kiss feud."

The issue was: Did, or did not Principal Charles O'Hearn, a bachelor, attempt to kiss or hug the three teachers of his school. O'Hearn said no. The teachers said yes. The school board fired the teachers and the county superintendent fired the principal. Mothers of the little community said there would be no more school until O'Hearn was rehired.

LABOR PLEDGED TO SHORT WEEK

Green and Lewis Speak of
30-Hour Job Campaign
Throughout Nation

WASHINGTON, Sept. 8.—(UP)—Organized workers returned to their jobs today, assured by their leaders that new and vigorous efforts would be made to obtain 30-hour work week.

That was the Labor Day promise of President William Green of the American Federation of Labor and bushy-haired John L. Lewis, head of the opposing committee for industrial organization, who placed their views before the nation in radio addresses here and at Knoxville, Tenn.

Green, speaking at a Knoxville rally, held out little hope that the rift which led to suspension of Lewis and 10 powerful unions from the federation would be healed. But he pledged continued efforts to reunite the opposing forces.

Lewis, in a speech on "Labor and the Future," made no reference to the suspension of C. I. O. Unionists but lamented that fewer than 4,000,000 of the nation's 30,000,000 eligible workers were affiliated with his organization.

Lewis is campaigning openly for the reelection of President Roosevelt, while Green reaffirmed his organization's intention to remain non-partisan in the presidential campaign.

COLUMBUS, Sept. 8.—(UP)—Two negro gunmen who forced Mrs. V. A. Gleich to open a safe in her home by holding guns to her head and a razor to her throat escaped today with \$50 while her husband and seven children slept peacefully in adjoining bedrooms.

Mrs. Gleich was bound and gagged and carried to the basement of her home before the bandits escaped. The safe was in a bedroom occupied by her two daughters, Irene 16, and Alberta, 15.

Mrs. Gleich said the bandits threatened to shoot the sleeping children when she told them she wasn't sure she could open the safe.

FEAR OF FEVER EPIDEMIC GRIPS STATE HOSPITAL

COLUMBUS, Sept. 8.—(UP)—A typhoid fever epidemic at the Columbus state hospital for the insane today had taken one life, stricken 10 patients and placed 37 others under observation.

All 2900 patients at the hospital were to be inoculated with anti-typhoid serum, according to Dr. William H. Pritchard, superintendent.

Health officials believed a typhoid "carrier," someone who carries and spreads the germs but does not become afflicted, was responsible for the epidemic. Water and milk supplies at the hospital have been found pure.

The patient who died was Otto Winters, 47, of Marion. He died last Friday. He also suffered from sleeping sickness, physicians said.

All patients ill or under observation have been isolated, Dr. Pritchard said.

About 900 of the patients eat in the main dining room; the others in their cottages. None of those eating in the cottages were afflicted, officials said.

LEVY FOR BOND ISSUE TO COST CITY .65 MILL

The average levy for Circleville's proposed \$75,000 bond issue for a sewage disposal plant will be 0.65 of a mill, County Auditor Forrest Short declared Tuesday. This levy is outside the 10 mill limitation.

Several Others Hurt
in Accidents

Leonard Gilmore, 51, Darbyville farmer, suffered a severely bruised left hip Saturday night when he was struck by an automobile while he was changing a tire on his car parked on E. Ohio street between Court and Pickaway streets.

The car that struck Gilmore was driven by F. L. Ladd of Leesburg, Ohio. Police said Ladd did not stop. He was returned to Circleville by the state highway patrol.

Ladd told officers he did not know he had struck anyone and posted \$100 bond to appear Thursday at 2 p. m. on a charge of failure to stop after an accident, filed by Police Chief William McCrady. McCrady said Ladd agreed to straighten out all affairs connected with the accident and he believed the charge may be dropped.

Glen Garrett, Lancaster took Gilmore to Berger hospital where he was treated and later discharged. Ladd's license number was given police by Raymond and Richard Lemaster who live on E. Ohio street near where the accident occurred.

Carl Ott, 7-year-old son of Mr. and Mrs. Floyd Ott, 158 Town street, suffered minor bruises Sunday evening when he was struck by an automobile at Court and Main streets while returning to his home from a picture show.

Police said Paul Friedman, of Washington, D. C., took the child to Berger hospital for an examination and notified the parents about the accident. The child was discharged after an examination.

Mr. Friedman was driving west on Main street. The child was crossing Main on the east side of Court street. Police said Mr. Friedman was crossing the intersection on the green light.

Cecil Thomas, 24, construction worker of South Solon, O., is in Berger hospital with lacerations and bruises suffered Monday morning when his motorcycle was struck on E. Main street by the automobile of Miss Laura Mantle. Howard Mills, also of South Solon, riding with Thomas, sustained bruises but did not receive treatment.

Thomas and Mills were going west on Main street, returning to their home from Lancaster, Mills said. Miss Mantle, going east on the street, was making a turn in the street in front of her residence.

Donald Barnhart, 3, of Circleville Rt. 5, was treated in Berger hospital Sunday for a cut on his head, suffered in a minor automobile accident. He was discharged after treatment.

Ruins After Shelling

MINSK, U. S. S. R., Sept. 8.—(UP)—Commissar of War Klement Voroshilov today warned enemies of the Communist regime both at home and abroad to "prepare" for the Russian government "has been ready for resistance for a long time."

JEAN DE LUZ, France, Sept. 8.—(UP)—Civilians and some soldiers are fleeing in small boats from San Sebastian, fearful that if rebels do not attack it the loyalists will dynamite it.

The British destroyer Tempest, which arrived with refugees today, reported it saw 36 boats of all sorts, loaded with refugees, between San Sebastian and Bilbao. It was estimated that 6,000 persons fled the San Sebastian area since the fall of Irun Friday.

Eighteen Spanish men and two women arrived here today in a small fishing boat. One was a priest, wearing clerical robes, who hid for eight days on the outer skirts of San Sebastian.

The Tempest reported a serious shortage of food at Bilbao, loyalist city on the coast. Officers said that townspeople were searching for claims along the beaches.

So far the loyalist lines have held, and if Madrid announcements are to be believed, the rebels have been driven back at important points.

The fall of the ancient Alcazar at Toledo where 1,200 men, women and children are besieged, appeared imminent. The Alcazar is being reduced to dust by a terrific artillery bombardment. Its capture would release the besiegers for duty on the Talavera front, where they may be joined by thousands of reinforcements being gathered in Madrid.

Near San Sebastian

Rebel success continued on the north coast. The insurgents converged on San Sebastian from all inland points and apparently will have it encircled soon.

The loyalists were fighting among themselves within the city, over the question of setting it afire and destroying it with dynamite before escaping to sea. Some civilians and soldiers already were decamping by boat.

Decisive Battle Near

Spain's position was unchanged. The new left wing coalition government mustered all its resources to put down the rebel menace in the southwest. The decisive battle of the war may be fought in the

LEGION IS HOST AS MANY ENJOY HOLIDAY OUTING

Veterans Lose Financially, But Provide Interesting Day for Throng

TWO SPEAKERS HEARD

Wahl, State Official, and Herbert, Candidate, Talk

Pickaway countians flocked to the highways Monday in celebration of Labor Day, the last vacation of the summer season.

Residents enjoyed innumerable picnics and family reunions. Many drove to nearby cities to attend sports events or took trips over the week-end.

The highways were jammed with traffic throughout the day. Fortunately no serious accidents were reported in this county.

Several thousand persons visited Gold Cliff park Monday but Legionnaires who sponsored the outing expect to lose about \$75 on their celebration. The majority of the crowd during the afternoon was young people, interested largely in the swimming pool and dance hall and not fish sandwiches, concessions and political speeches.

Wahl Speaks Briefly

Carl Wahl, Democrat, director of public works, in Ohio, arrived at the park about 4 p. m. and spoke only a few minutes to a small group of veteran Democrats. He praised the work of the American Legion in sponsoring the celebration and did not mention politics.

A larger crowd was present during the evening for the address of Paul M. Herbert, Columbus, Republican nominee for lieutenant governor.

"Think clearly, keep your feet on the ground and register by your ballots this fall that which you think is best for your country," Mr. Herbert said.

"This is really not a campaign between Democrats and Republicans. Even famous Democrats place the welfare of our government ahead of politics, and are against the New Deal."

"Organized labor has done more to raise the standards of living of the American people than any other agency. The New Deal and its false promises has crucified labor and caused a wide split. We have always had the problem of labor and employer since the days of Moses and no government can buck the laws of nature and the laws of God."

He cited the conditions in Germany, Spain and Italy caused by breaks in labor and appealed to voters to stop prejudice between the working group and employers.

Mr. Herbert praised Governor Landon as a man who had the courage and the background to solve the problems confronting the government.

Hits Davey-Poulson

Mr. Herbert hit the state administration by the Davey-Poulson organization and urged voters to "break the power of a downtown hotel where the state of Ohio is governed." He contended the sales tax on food should never have been a law and "it has cost \$12,000,000 to have the sales tax issue in the campaign."

Legionnaires reported their fish sales amounted to approximately 500 pounds. They expected to sell at least a ton during the celebration.

The Circleville high school band presented a concert during the evening.

The celebration was closed at 11 p. m., with a fireworks display.

Wonder if the inhabitants of the drought area have ever tried arranging a Sunday school picnic as an inducement to rain?

Circleville Family Enjoys Cleanliness Of Modern Automatic Gas Heat

J. W. Johnson Rids His Home of Furnace Dirt and Soot

Efficiency Praised

Gas heat cut household cleaning costs in the home of J. W. Johnson, 648 North Court Street, during the past winter. Savings on cleaning bills of such things as curtains, rugs and other furnishings were minimized by the clean, healthful heat from an automatically controlled gas-fired heating plant.

Mr. Johnson has this to say about his modern gas heating equipment. "Installation of gas heat in my home has worked very satisfactory."

This clean heat of even tempera-

nure? What will be the medical fees for ailments caused by the uneven temperatures produced with your old fashioned furnace? What will be the cost of replacing your present furnace or of making necessary repairs to heat your home again this fall?

The Scientific Solution

Gas heat eliminates or minimizes all these nuisance costs. Today, thousands of satisfied customers demand this ever-available, modern fuel that requires absolutely no attention. No fires to build—no fuel to carry in—no waste to carry out—no space needed for storage. Gas is the only truly automatic heat—and above all, it is clean and maintains constant temperature.

Simplicity of installing one of these gas-fired units in your present furnace or boiler is another of

Johnson home at 648 North Court Street

ture was maintained in the Johnson seven room home through the severe weather of last winter at an average cost of \$13.91 per month.

Do You Work For Nothing?

Do you know how much time the average person spends with some out-moded appliance? If you are one of the average users of an antiquated furnace found in many homes today, you are spending nearly 64 hours per heating season of eight months refueling fires, 49 hours rebuilding fires that have gone out, 9 hours carrying fuel to the storage bin and 6 hours removing the ashes.

During the average heating season of thirty-two weeks many people are actually spending 128 hours or nearly sixteen working days at some form of furnace drudgery. At a wage scale of fifty cents per hour, the labor cost alone for this old type method of heating (whether you hire the work done or do it yourself) is costing you at least \$64.00 per year.

But other items, too, cause many persons to carry that "winter grudge." How much will it be necessary for you to spend to clean up dirt from the furnace and the dust from ashes that settle over your curtains, beds, rugs and fur-

the features that appeals to many people. Payments may be made on an easy monthly basis.

THEATRES

AT THE CLIFTONA

The men who made "The Count of Monte Cristo" have done it again!

This time, Harry M. Goetz and Edward Small, the producers of Reliance Pictures, have chosen to bring to the screen, with a magnificent cast, "The Last of the Mohicans," James Fenimore Cooper's immortal classic of the hand-to-hand struggle for a nation yet unborn and have turned another unforgettable picture which is top-notch entertainment as well as a film of truly epic proportions. The audience at the Cliftona theatre, where it had its local premiere Sunday night, thrilled to a glorious experience, and, in the opinion of this reviewer, the picture cannot fail to prove a monumental item on the cinema list of the millions of lovers of the book as well as those unfamiliar with the stirring story of pioneer men and women who faced death and danger and glorious adventure side by side for the country they both loved.

As depicted by one of the greatest casts in the memory of this reviewer, Cooper's colorful characters come to a warm and pulsating life on the screen.

AT THE GRAND

Joe E. Brown, now appearing at the Grand theatre in the Warner Bros. picture "Sons O' Guns," has been offered the job of a syndicated feature columnist for a string of British colony newspapers.

But Joe is not to write on the movies, but on the subject about

which he is perhaps most familiar of all sports.

The material would be primarily for Australia and New Zealand, where American sports are greatly in favor. Joe's comments would be chiefly on matters of international competition, such as Olympic events, Davis Cup tennis, and so on.

PLOWING Demonstration

We will hold a public Plowing and Discing Demonstration with the F-12, F-20 and F-30 Farmall Tractors on the Jacob Scharenberg Farm, 2½ miles west of Circleville on State Route 56, on

Thursday and Friday September 10 and 11

YOU ARE CORDIALLY INVITED TO ATTEND ONE OR BOTH DAYS.

The Farmall 30 is the big-farm member of the Farmall family. It was added to the Farmall line five years ago to meet the needs of row-crop farmers in the 300-acre class or thereabouts, also to give the extra power required on many medium-size farms where hills or stubborn soil rule out a smaller tractor. The Farmall 30 extends the benefits of the Farmall system of farming to the large operator as the Farmall 12 brings those benefits within reach of the small operator.

CIRCLEVILLE, O.

GOOD WILL

ONE of the most valuable assets a railroad can have is the good will of the public it serves.

In building good will, it is essential, of course, that the railroad provide an adequate, efficient transportation service. The constant, frank presentation of the true facts about the railroad—its problems and what it is attempting to do—is another vital factor. But so far as the Norfolk and Western Railway is concerned, genuine public good will grows from something more lasting and significant. And that is: a sympathetic understanding and a common interest which actually exists between the railway and the public, plus mutual respect and confidence.

The Norfolk and Western is what you might call a "home town" railroad. For during the nearly one hundred years of its existence, the railway has grown up with hundreds of communities along its lines. The people of those communities have played a very definite part in the development of the railroad, and the railroad has played a very definite part in the development of the communities. They live and work together as neighbors and friends. They understand and respect each other. Each has a sincere interest and pride in the progress and achievements of the other. These things are the essence of genuine good will.

The Norfolk and Western cherishes the good will of its patrons and friends, and of the communities it is privileged to serve. The railway will always strive sincerely and diligently to merit that good will.

OHIO AUTOISTS PAY MILLIONS TO TAX FUNDS

Clifton Declares Association to Consider Protest of Additional Levies

\$85,877,397 PAID, REPORT

Dealers Demand Candidates Declare Their Stand

Ohio motorists are paying the state and federal government in direct taxes, the staggering sum of \$85,877,397 according to estimates received today from the Ohio Automotive Association headquarters, Columbus, by E. E. Clifton, chairman of the Pickaway County Automobile Dealers association.

Commenting on taxes extracted in various methods from drivers, Mr. Clifton said an analysis of the total paid in 1935 shows the following: gasoline tax collections, \$39,168,786, license tag fees \$22,153,123 sales tax on motor vehicles and accessories \$6,631,829, federal excise tax on cars sold in Ohio \$17,766,048, fines and penalties paid the state \$38,161, and dealers license tags \$119,450.

Average is \$57

The total of this sum, Mr. Clifton said, averages approximately \$57 each that Mr. John Mortorist does out annually to the state and federal government for the privilege of owning and operating a motor car.

"And what is more alarming," he declared, "is that there is serious talk of increasing the present gasoline tax at the next session of the legislature to offset the loss of other forms of taxation which may be abandoned."

"I believe every motorist in this county should insist on knowing immediately just how our various candidates for the legislature stand on this matter—whether they be Democrats or Republicans. This is not a partisan political question, but one that hits the pocketbook of almost every resident of our county."

The subject would be discussed at the convention of The Ohio Automotive Association at Columbus, September 9, when members of the trade will gather for a one-day meeting. Plans will be made to fight any plan for further increasing any tax on the motorist, who certainly is paying his fair share of the cost of government.

F. D. R. PREPARES TO TALK DURING SOUTHERN TOUR

WASHINGTON, Sept. 8—(UP)—President Roosevelt, satisfied with reaction to his Labor Day message to the nation, completed the text today of a major address he will deliver at Charlotte, N. C., Thursday during a tour of Tennessee and North Carolina.

Fresh from a visit to the drought-stricken mid-west, Mr. Roosevelt will turn southward to night. His journey is being labeled "non-political" by White House attaches but his Charlotte audience will be composed of thousands of Democrats attending the so-called "Green Pastures" rally.

The rally, it is understood, is designed to stimulate interest in the Roosevelt re-election campaign and will open officially when the president appears.

Mr. Roosevelt will go first to Knoxville, Tenn., where a reception will be held for him tomorrow at 10 a. m. (EST). He will leave Knoxville by motor and drive 140 miles over the winding roads of Great Smoky National park to Asheville, N. C., where he plans to spend the night. On Thursday he will go, probably by automobile, to Charlotte, immediately after his speech he will entrain for Washington.

For the first eight months of 1936, permits for new residences were issued in eleven cities for a total valuation of \$3,604,518, compared with \$1,066,540 in the first eight months of 1935.

The eight-month figures:

"Much of this increase in home building has been stimulated by the National Housing Act," said A. L. Guckert, director of the Columbus District of the Federal Housing Administration. "The Housing Administration insures loans made by private lending institutions up to 80 per cent of the appraised value of a property. These loans may be repaid in monthly installments over a period of one to twenty years like rent."

Injuries are retarding several of the youths, Kenny Smith, end prospect, being laid up with a bruised hip, and Bob Anderson, another hopeful, being out temporarily with a hand injury, losing a fingernail. TURNER ANGERED AS FRENCH ACE WINS AIR EVENT

LOS ANGELES, Sept. 8.—(UP)—Michel Detroyat, tall, smiling Frenchman, pocketed \$14,400 prize money and the National Air Race championship today, unmoved by critics who said he used a "government plane" costing \$1,000,000 to beat an American field in the \$20,000 Thompson trophy race.

He will take his dark blue racer into the air today to try for a third championship—the Shell Cup award—before freighting it back to France. The race, carrying a \$3,000 purse, was postponed on the closing day yesterday because of fog.

Scarcely had Detroyat landed his plane in front of the crowded grandstand yesterday, the Thompson winner, before Col. Roscoe Turner criticized bitterly to the race committee and the French government for letting a foreign entrant "trim a bunch of little guys who build airplanes in their backyards."

Turner touched on the subject just before the race, when he spoke through the loudspeaking system at the races. He said Detroyat's accomplishments were to be discounted because he flew a "million dollar plane" built by government engineers to compete against ships that cost no more than \$15,000.

AT HARVEY'S famous restaurant in Washington, D. C., you enjoy the same dishes that delighted Mark Twain, Emerson, Booth, Taft, and other famous men. What cigarette is preferred here? Most emphatically, Camels. Julius Lulley, host at Harvey's, says: "Our diners agree on Camels. Those who prefer quality food appreciate Camel's costlier tobaccos."

Camels add zest to meals—aid digestion—increase alkalinity

RUSH and mental strain impede digestion by slowing down the flow of the digestive fluids so necessary to proper, smooth digestion. Smoking Camels assists digestion by increasing the flow of the alkaline digestive fluids in a pleasant and natural way.

It is thus that Science explains the sense of well-being that you experience after you dine and smoke Camels. Make Camel your cigarette. They set you right.

FARM INCOME AND PRICES

WHILE the desperate plight of farmers
in drought areas is being heralded,
the great majority of them the country
over are enjoying a higher return than
they have had since before the depression.
That is clear from the analysis of reports
released by the Department of Agriculture
the last few days.

Most significant is that the cash income
of \$711,000,000 for July from the sale of
products is the highest for any month since
1929. In addition the farmers receive \$24-
000,000 in government rental and benefit
payments. This compares with \$19,000,000
a year ago when the cash income was ap-
proximately 57 per cent less.

For the seven months this year market-
ing and government payments aggregate
\$4,025,000,000, the highest for the recov-
ery period. Despite drought or other hand-
icaps the Agriculture Department predicts
that income the remaining five months will
run ahead of the corresponding period last
year.

There is the other side. With rising prices
it isn't all clear gain for the farmers.
They must, of course, pay more for things
they buy, as must other consumers. Compar-
ison of the index figures kept by the
Bureau of Agricultural Economics regard-
ing both what the farmers receive and
what they pay shows interesting results.
The indexes are based on the 1909-1914
period.

As of August 15 last the index level of
prices received by the farmers was 124
while that of the same date for all com-
modities purchased by them was 126, a
spread of two points against the farmers.
This is the smallest disparity since August,
1929. Chiefly accountable for that dispar-
ity is the rise in prices caused by the short-
age in feed crops—an anomalous situation.

EARN YOUR THRILLS

SOME years ago when the use of the
automobile became general, writers of
the sensationally foreboding type fre-
quently predicted that future generations
might entirely lose the use of the legs, just
as fishes that live in cavern lakes have lost
the use of their eyes. The possibility seems
no longer a matter of concern.

But unquestionably the general use of
the automobile and extension of the good
roads system is depriving American people
of the lure of adventure and the thrill of
sightseeing that once came as the result of
good, hard exercise to attain these. A writer
in Nature Magazine warns that making
points of interests accessible has been car-
ried too far.

There is a compensation in attaining a
glimpse of a waterfall or a view from a
mountain top at cost of a long tramp
through an unbroken wilderness or several

Here comes Senator C. C.
Chappellear, out again after a
most serious illness. And maybe
these prints which he once
owned, played a part in his re-
covery. Newspapermen the
world over know that the most
certain way of bringing about
the recovery of a man of prom-
inence is to put his obituary
in type. When Senator Chap-
pellear's serious illness was first
announced did at once order his
obituary written and set in
type. Almost immediately the
Senator took a turn for the bet-

Within a day or two the Sen-

in the meantime he cares to read

death would be pleased to show

Daily Washington Merry-Go-Round

By DREW PEARSON and ROBERT S. ALLEN

DELAWARE TORN BY STRIFE

WASHINGTON — The Duchy of Dela-
ware is one of the nicest, tightest lit-
tle empires ever ruled by any monarch,
outside of Monte Carlo, Luxembourg or
Lichtenstein.

Its rulers are the du Ponts, manufactur-
ers of powder, munitions, automobiles,
paint, and one of the wealthiest families in
the United States. They build highways
and they own the two daily newspapers
that dominate the State, they elect the gov-
ernor from their own family. They are defi-
nite, though kindly despots.

But now their little duchy is torn with
internal dissension and political war.

The joke is that what the du Ponts tried
to do to the Democrats has now come home
to roost. No group in the USA spent more
money trying to stir up dissension within
the Democratic Party. Du Pont money was
in the Liberty League, in Talmadge, and in
a long list of promising sores within the
Democratic fold.

That was the best way, they figured, to
beat Roosevelt.

So bitter is the feuding within Repub-
lican ranks in Delaware that unless peace
is arranged soon, the three electoral votes
from this traditional GOP stronghold will
bear the label of the man the du Ponts are
so desperately anxious to defeat.

DOUBLECROSS

Cause of the row is an alleged double-
cross.

I. Dolphus Short, popular Sussex county
leader, claims that the du Pont controlled
State machine promised him the Republi-
can gubernatorial nomination. Short's
claim is backed up by former Congressman
Robert G. Cannon, who broadly intimated
at the recent State GOP convention that
Governor C. Douglass Buck, du Pont son-
in-law, gave this assurance two years ago.

Buck, now nursing senatorial ambitions,
heatedly denied the statement.

"I know nothing of any such agree-
ment!" he yelled angrily.

"And I say you do," Short bellowed back
at him.

Under the whip-cracking of Buck the
convention nominated Colonel Harry L.
Cannon, a rival of Short's in Sussex county.

Short and his followers promptly walked
out of the convention, held a rump meet-
ing in a nearby hall and organized an in-
dependent Republican party. A nominating
convention will be held this week at which
a rival GOP ticket headed by Short prob-
ably will be put into the field.

No matter how many wars were fought
in Europe or South America, peace and
prosperity always have reigned in the
Duchy of Delaware. So now the Dukes of
du Pont, much embarrassed, are bringing
heavy pressure to bear on Short to return
to the fold.

So far he has turned down all overtures
and has been negotiating with the Town-
sendites for an alliance against the du Pont
machine.

experienced if one arrives by a swift,
smooth drive along a paved highway.

It is well to make good roads and to set
apart public parks that are readily acces-
sible. But nature lovers should insist that
some hill-top views and some forest fast-
nesses be left as Nature made them and
kept sufficiently removed from all high-
ways to be undisturbed by automobile horn
or the voices of speeding motorists.

been, all day? Do you know I've
telephoned three times?"

Gay shrunk back. Of all the
people in the world, Mrs. Larri-
more!

She couldn't help hearing every
word of the conversation out in the
living room, while Wayne explained
that he'd been away all day and
had just returned.

"But I rang the door bell twice!
And why haven't you any lights
on? Were you asleep? I see that
you were—your hair's all rumpled."

Do let me straighten it for you.
You're such a well-groomed per-
son, usually, it looks odd, that way.

There! But don't you ask a guest
to sit down? I've some very im-
portant news for you!"

Gay tip-toed to the windows, and
stood looking down at the street,
far below. Even so, she could not
escape hearing all that went on.

There was a silence, while Grace
Larrimore settled herself in a
chair. Then she rattled on. "Tim
Keenan's gone out of town."

"He has?" Gay caught the note
of consternation in Wayne's voice.

"Yes. Gone to Paris, if you
please, to meet Eleanor and get
married. That wretched check girl
didn't succeed in landing him, after
all her work. I'm glad of that, of
course. As Eleanor's friend, I'm
glad of it. Tim came to my
senses in time, before that cheap
little gold digger coaxed him into
marrying her! But it's such a
shame for all your hopes and plans,
Wayne dear, that Tim should go
away right at the psychological
moment. He was almost ready to
sign up with you, wasn't he? Now
everything will have to wait till he
comes back to Detroit. Tim is
sorry! Why isn't my money
as good as anyone else's? Wayne,
darling, you've known all along how
I feel toward you. From the night
we first met, before Walter died,
I've been deeply interested in your
career. Please, dearest, don't try
to stop me from telling you. I
might as well put my cards on the
table. I ask nothing more than
just to help! Why can't you—"

Gay felt she would scream if she
had to hear any more. There was
something shameful in this un-
intentional eavesdropping. She
pressed her hands to her ears, to
shut out Grace's pleading voice,
and Wayne's embarrassed replies.

Long moments passed while she
stood there, more thoroughly mis-
erable than at any time in her life,
as she realized more and more
clearly how close she had come to
"throwing her bonnet over the
windmill!"

Even now, she could smile a lit-
tle, remembering Aunt Sophie's
old-fashioned phrase. Well, her
bonnet was saved, Gay mused. And
she'd never let herself come so
close to disaster again.

Wayne's response was so low-
pitched that Gay didn't catch the
words. It was Grace's high tones
that next forced themselves upon
her hearing.

"Yes, I am going to make my
offer again, and this time you
must accept! Why isn't my money
as good as anyone else's? Wayne,
darling, you've known all along how

close to the windmill again.

Grace Larrimore was frantically
in love with Wayne. That was ob-
vious. And Wayne needed money
very badly. So undoubtedly, their
marriage was only a question of
time.

And she, Gay Elwell, intended to
marry Christian Scott. Then what
was she doing here, hiding in a
man's bedroom? She felt almost
sick with loathing and self-con-
tempt.

If only she could get away! But
that was impossible, while Grace
remained in the apartment.

Gay told herself, grimly, "Just
let me get out of here without be-
ing seen, and I'll never play with
fire again, as long as I live!"

After what seemed hours, she
heard doors shutting. Then Wayne
came into the bedroom. Before he
could speak, she told him her in-
tention.

"I'm going home, Wayne. Will
you get my things?"

His manner was incredulous.
"You're going to do nothing of the
sort!"

"Oh, but I am," she repeated,
stomily. "Please get my hat and
gloves."

His arms were around her. He
titled her face to his. "What's
come over you? For Pete's sake,
Gay—is it because Grace happened
to come in? We're old friends—"

She pushed him away. "That
has nothing to do with it. I'm go-
ing. I don't want to be alone with
you again, ever."

His anger flared. "Then why did
you come here? I don't remember
having to force you!"

"You didn't force me. It was
mostly my fault, what happened
tonight, and I'm sorry. Now I'm
going home."

"Go ahead!" Wayne moved
aside. "I've never made love to a
girl against her will in all the 23
years of my life, and I don't intend
to start now. But I'd like to ask
a few questions before you leave."

Salmon Chowder

Fry together one-quarter pound fat salt pork cut in cubes and one chopped onion. Add four large raw potatoes, cubed, and two cups water. Simmer until the potatoes are tender. Add one quart milk, and one can red salmon, drained and flaked. Let mixture boil up once and remove from the stove. Serve hot with toasted crackers. This dish, with salad and dessert, makes a complete luncheon.

Peach Chutney

1 qt. fresh ripe peaches (measured after they have been peeled and sliced thin)
6 C. of thinly sliced pre-served ginger
1 small clove of garlic
1 C. cider vinegar
1 C. tarragon vinegar
3 C. sugar
1 1/2 lb. dried currants

Slice the ginger into thin slivers. Tie the clove of garlic into a little cheesecloth bag so that it can be removed when the chutney is cooked. Put the vinegar and sugar into a large preserving kettle and let cook until the sugar is dissolved and the syrup is clear. Then add the peaches and ginger root, garlic and currants, and simmer gently for 4 or 5 hours over low heat. Stir occasionally to keep from scorching. This amount makes about 5 half-pints.

Pickled Crab Apples

Crab apples should be selected carefully to make certain they contain no worms. Leave stems on. Wash thoroughly and cut out blossom end.

2 lb. brown sugar
1 qt. vinegar
4 qts. crab apples
4 Tbsp. cloves
1 oz. stick cinnamon

Boil the sugar, vinegar and cinnamon together until they look syrupy. Stick two cloves in each apple and drop into the syrup. Cook until they may be easily pierced with a fork. Put them into hot jars. Pour syrup over them, filling each jar, and seal while hot. Allow jars to cool, then store.

Pickles Peter Piper Never Picked

With garden products less plentiful this year, only the most industrious homemakers will trouble to pickle and can goodies at home. The tang of made-at-home spiciness is a treat for family use. Make a few small batches for fireside consumption or, if you like, pack them in neat pottery jars for gifts to friends.

Apple, Peach or Pear Pickles

3 C. honey
3 C. vinegar
2 C. water
1 tsp. salt

Bring these ingredients to a boil. Add fruits and cook until tender. Pack in sterilized jars. Cover with pickling syrup and seal. For apples, tie the spices (cloves and cinnamon) in a cheesecloth sack and boil in pickling syrup. For pears and peaches, stick two or three whole cloves in the fruit and allow the stick cinnamon to cook in the pickling syrup.

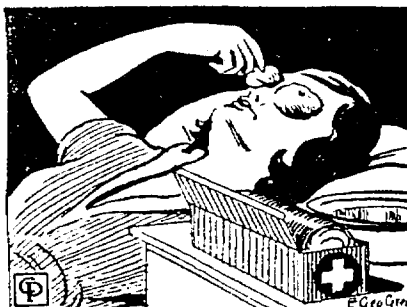

Pickled Tomatoes

1 pk. green tomatoes
1 C. salt

Take two and one-half qts. of vinegar, brown sugar, mustard seed and spices and boil tomatoes in this 15 minutes. Turn into a stone jar.

What would you suggest as an accompaniment for a kidney bean salad?

For a luncheon, serve crisp wafers or dainty lettuce sandwiches spread with a tart sauce. A kidney bean salad is usually not served with a dinner, but for a luncheon as a main dish it may follow a cup of clear soup served with crackers or sandwiches. A light dessert such as a glorified rice or a tapioca pudding would be a fitting dessert.

Ever try putting pads of cloth or cotton wrung out of hot water on your eyes when you lie down and relax when tired? It rests the eyes.

CINCINNATI REDS PLAY HAVOC WITH TWO CONTENDERS FOR LEAGUE TITLE

CARDINALS AND CUBS EASY FOR REDLEG OUTFIT

11 Victories in Last 12 Dangle From Belts of Dressed Men

TO MEET GIANTS NEXT Carleton and Warneke Are Pounded Monday

CINCINNATI, Sept. 8.—(UP)—With victories in 11 of their last 12 contests and playing as good a brand of ball as any team in the National league, the Cincinnati Reds headed east for the final time tomorrow with a doubleheader against the New York Giants. Cincinnati ended its home stand in a blaze of glory. After turning back the St. Louis Cardinals twice Sunday, the Reds came back yesterday before a holiday crowd of 19,047 fans to defeat the faltering Chicago Cubs twice, 6 to 2 and 8 to 4.

The two contests saw the Reds slam the offerings of every hurler on the Cub roster with the exception of Larry French and Curt Davis for a total of 21 hits.

Short Fight Offered The second game likewise saw a renewal of the feud between Shortstop Billy Jurges of the Cubs and Catcher Gilly Campbell of the Reds.

Campbell attacked Jurges as he came to the plate in the third inning. After a brief flurry, which threatened for a time to envelope other members of both clubs, the two were separated and ejected from the game.

Cincinnati won the opener behind big Paul Derringer. Derringer was picked for 11 hits, but kept them well scattered while his mates bunched their nine hits. The Reds pounded Tex Carleton from the mound after 1 1/2 innings which they raked him for five runs. The telling hit of the two innings was Babe Herman's 11th home run of the season with a

He gave up 10 hits while the Reds scored 12.

BOB FELLER HANDICUFFS BROWNS, FANNING TEN

CLEVELAND, Sept. 8.—(UP)—Bob Feller the 17-year-old Iowa farm boy, today has proved his feat of striking out 15 St. Louis Browns in his first major league start on Aug. 23 was not an accident. The youthful star of the Cleveland Indians staff came back yesterday to set down 10 Browns on strikes as he gained a 7 to 1 triumph. Feller's accomplishment gave the Indians an even break for the day. They had lost the first game 6 to 4.

GRANT, NOECKER WIN LABOR DAY GOLFING MATCH

Harold Grant and Joe Noecker won golfing honors Monday in Tod Thompson's best-ball handicap tournament by scoring an 80 with a 22 handicap to finish with a 58 net score in the Labor Day tournament.

Grant and Noecker tallied splendid scores of 39 and 41 in the best-ball play to win the top spot in a tournament featuring much competition.

Grant scoring a 46-46, 92 with a 26 handicap for a net 66 tied with George H. Fickard, 44-45, 89 with a 23 handicap for The Daily Herald trophy given annually on Labor Day in the regular handicap tournament. It will be necessary for the men to play off for the trophy. Last year John Bragg won it.

Good scores featured Monday's play with Tom Gilliland and Johnny Mader furnishing the fireworks. Gilliland scored a 39, the first time in his golfing career he has ever been under 40. Mader negotiated the par 4 No. 6, 338 yards in two, driving on the green and sinking an 8-foot putt.

A. L. Wilder and George Fickard finished second in the best-ball tourney with 42-44, 86 cut to 61 with their 25 handicap. Tom Gilliland and C. T. Gilmore were third with 38-40, 78 with a 16 handicap.

The week-end was perfect for golf and scores of club members and guests participated in the double-holiday.

PRO, ALL-STAR GRIDDEES MEET IN GOTHAM TILT

NEW YORK, Sept. 8.—(UP)—The football controversy which has been raging three years in the midwest between the collegians and the professionals moves east tonight to the Polo Grounds, where the all-stars, the pick of last year's graduate heroes, meet the New York Giants, eastern pro champs, before an expected crowd of 45,000 persons.

The probable line up: All-Stars Giants Miller . . . LE . . . W. Singer D. Smith . . . LT . . . Morgan Fortman . . . LG . . . Phillips Jones . . . C . . . Hein Karcher . . . RG . . . Dell Isola Linqua . . . RT . . . Grant Topping . . . RE . . . Rose R. Smith . . . QB . . . Danowski Bervanger . . . LH . . . Richards Maniaci . . . RH . . . Burnett Beise . . . FB . . . Corzine

NEW YORK NEEDS SINGLE CONTEST TO CLINCH FLAG

NEW YORK, Sept. 8.—(UP)—The New York Yankees need to win only one game to clinch the American League pennant, but there is a grand dog-fight for second place involving the Detroit Tigers, Chicago White Sox, Cleveland Indians and Washington Senators.

Aside from first place, berths in the first division of the American league are anybody's prizes, with the Tigers and White Sox tied for second place, and the Indians and Senators tied for fourth, only a half game behind.

In the National league the Giants are not quite so well off as the Yankees, and a "subway series" still is not a certainty, but a five game lead with only 21 to play is a margin that neither the St. Louis Cardinals nor the Chicago Cubs can laugh off.

LEADERS OF A. A. START PLAYOFF TO CLOSE RACE

BY UNITED PRESS The regularly scheduled season of American Association baseball teams had ended today with Milwaukee in first place and St. Paul only 31 percentage points behind. These two teams and Kansas City and Indianapolis, third and fourth place winners respectively, will start a playoff series tomorrow to determine the representative of the American Association against the International league. Milwaukee will open the playoff against Kansas City tomorrow and St. Paul will play Indianapolis. The two winners will meet in a final elimination.

BOOSTERS LOSE AND WIN IN HOLIDAY CONTESTS

Circleville Boosters divided a double header during the Labor Day week-end, winning from North Lewisburg, 6 to 4, with Raymond Smith giving four hits, and losing at Waverly, 0 to 5. Whaley tossed the losing game and deserved a better fate, an infield error permitting most of the runs.

About This And That In Many Sports

Reds Tumble Apple Carts

Those amazing Cincinnati Reds fresh from a double win over the Cardinals, knocked off the Chicago Cubs in a twin bill Monday, and did it with ease — The St. Louis crew didn't look like the gashouse gang, and the Cubs looked anything but pennant contenders against the Redlegs, who are really hot when they meet the topnotchers — Had Cincinnati been able to defeat the second division teams as easily as the first the crew might have been battling for a first division spot instead of the top of the second. * * *

Playoff Opens Tonight

The softball loop playoff starts this evening at 6:15 o'clock with the Eagles and Circleville Oils meeting for the best two-in-three — As a result of their showing in the second half, the Eagles are favored over the Oils since the latter crew finished in the second after winning the first half honors —Raymon Smith will twirl for the Eagles and Bill Hegele for the Oils. * * *

Columbus Is Through

Columbus has completed its American Association in sixth place, the lowest position a Columbus crew has occupied since the Cardinals took over the destinies of the club — Failure of much-vaunted stars to come through hurt the club — Injury to Pat Antkennian, midget shortstop, did the Birds no good — Nearly a complete new ball club will be offered the Red Birds next year — Jack Winslet and Eddie Morgan are going up, both to Brooklyn and several others including Chervinko and Owen will find higher berths, maybe. * * *

CITY APPROVES FINGERPRINTING TIPSY AUTOISTS

WAUKEGAN, II. (UP)—Intoxicated and reckless motorists are treated like criminals by police here. They are booked, photographed and fingerprinted.

Traffic Sgt. Laurence Kelly, in charge of the recently created accident prevention bureau, keeps

a complete Bertillon record of all offenders arrested on any of the three following charges:

Reckless operation of a motor vehicle and causing an accident. Drunken driving and causing an accident.

Since formation of the bureau, Kelly says, there has been a reduction in the number of accidents and he is convinced the new system will make for an even greater reduction.

Police Chief William Blaylock approves Kelly's new system of

photographing and fingerprinting drivers.

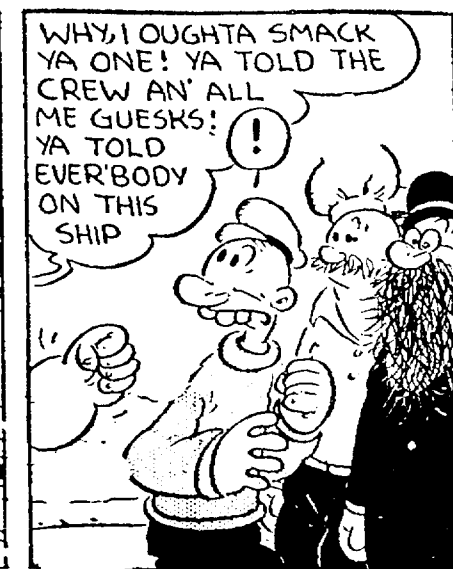

"Fingerprinting is the best system of identification in the world," he said. "It won't be long before other cities are doing it."

Only two deaths have occurred from automobile accidents in Waukegan this year. This city is now rated as among the first five safest traffic cities in the state.

What Measures to Take to Prevent Decay

By LOGAN CLENDENING, M. D.

WE DISCUSSED yesterday on mouth cleanliness and the use of the tooth brush. Such cautions may seem superfluous to some, but not when we ponder the statistics of dental decay in this country. It is not long ago by a secretary of interior that four out of every five persons in our country have dental decay.

Of course it must be admitted the most up-to-date views of the prevention of tooth decay emphasize the nutrition of the teeth rather than the tooth brush. That view is seen on the walls of most dentists' waiting rooms today, in the form of placards with the advice to eat plenty of milk, butter, eggs, green vegetables and fruits for the sake of the teeth.

The experiments upon which this doctrine is based were done by an English woman, May Mellanby. They were begun in 1917 and still are being carried on. She worked on dogs, rabbits, rats and man, and concluded that "the problem of dental caries and periodontal disease (pyorrhea) is fundamentally a problem of nutrition", and that a lack of Vitamin D is an important causative factor. I have reported that by feeding guinea pigs diets deficient in the fat-soluble vitamins and the anti-scurvy vitamin, the changes in the teeth similar to dental caries in man was produced. Lack of phosphorus and calcium have also been reported to create a tendency to dental caries. There is evidently no one factor

in diet responsible for the production of caries, either in experimental animals or man. Hanke has conducted probably the best controlled study in man: based on the impressions he had gained in private practice, he made extensive and carefully checked observations on the children at Moosehart, Illinois, the City of Childhood of the Loyal Order of Moose. He concluded that the most important dietary preventive to caries was orange juice and the juice of one lemon a day. This led to the disappearance of most of the gum inflammation and 50 per cent of the dental decay.

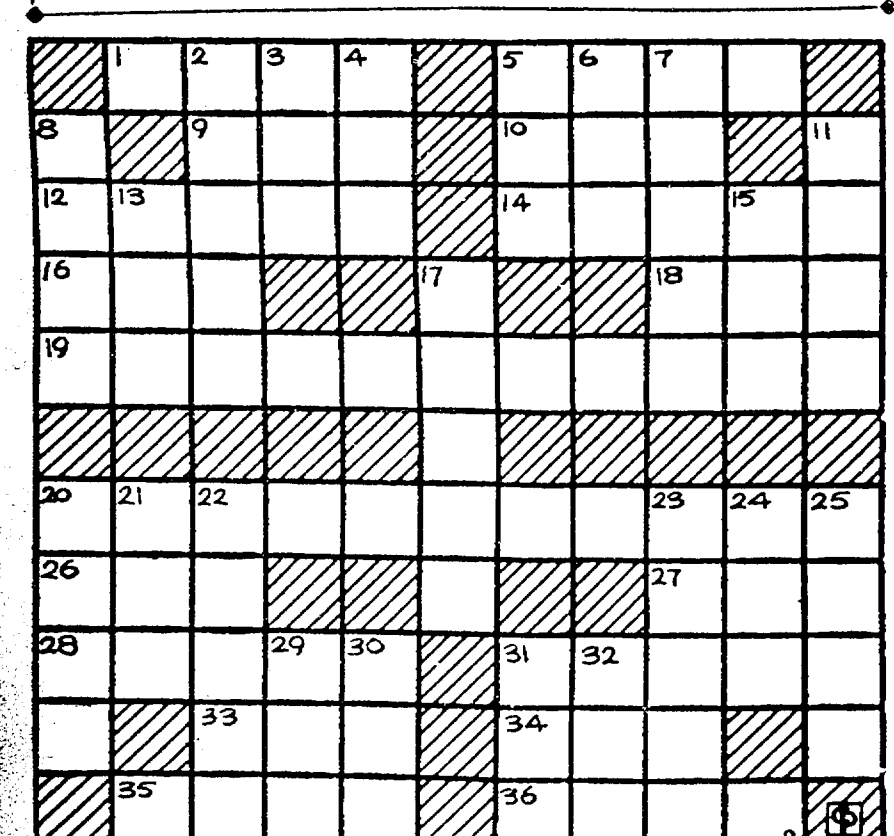

We need not follow any one school if we remember that good wholesome food, with plenty of milk, butter, eggs, fruits, tomatoes and green vegetables in childhood, is the diet not only for tooth health, but for general bodily health.

It would be unfortunate if we allowed these experiments in nutrition to let us neglect the tooth brush and mouth hygiene. It would seem to be a commonsense proposition that good teeth depend upon three things: (1) Adequate nutrition, (2) mouth cleanliness and (3) the aid of the dentist.

The dentist can do his part by making the teeth as regular as possible and leveling down the crags or bags which might catch food particles and breed germs. But in spite of all preventive measures, small areas of dental decay will occur, and these should be treated early.

Once more let me make a plea for the first permanent tooth. It is a molar and comes in at the back of the temporary teeth. It is liable to be mistaken by parents for one of the first set, and if it becomes decayed, neglected. More poor mouths are the result of this neglect than any other one thing.

Ed Thorgersen and Kay Kyser to Join in New Football Revue Saturday, October

FAMED COACHES TO BE GUESTS IN INTERVIEWS

Ann Shelley to Return to Cast of One Man's Family Sept. 16

A new fall show entitled the Football Revue starts October 3. The program, starring Ed Thorgersen, sports commentator, and Kay Kyser's orchestra, will be broadcast over a WABC-CBS network at 7:30 p. m. (EST) for a half hour every Saturday. Thorgersen will interview famous football coaches from every section of the country during the course of the series and in each broadcast give a rapid fire resume of highlights from the important football games played that day. Distinctive dance tunes by Kay Kyser's orchestra will intersperse the football comment by Thorgersen and create the spirit of a "Football Revue". This new series brings the Kyser band to the air for its first big commercial series although it has been climbing rapidly to the top in network popularity recently. Thorgersen is particularly suited by his background for the job of sports commentator on the Football Revue this year. He is sports editor of Movietone News and his voice is familiar to millions of movie goers. Previous to his newsreel assignments he was

a star network announcer covering sports and special events. Kay Kyser's music is well known in New York, Los Angeles and Chicago, where he has played lengthy engagements and this summer he has been touring the whole country. He organized his first band when he was a student at the University of North Carolina. His unique idea of introducing musical numbers by singing the titles at once put a distinctive stamp on his band.

CHILD, 4, STARRED
Little four-year-old Ann Shelley comes back into the cast of One Man's Family on Wednesday, September 16, when the character she plays makes another appearance in the serial drama. The character is Joan, daughter of Claudia, and the tiny actress will be "starred" in this chapter.

The episode, to be broadcast over the NBC red network at 7 p. m. (EST) finds all the Barboours weekending at the ranch of the eldest daughter, Hazel. Her husband, Bill, played by Bert Horton, is another character who is seldom heard but will be present this week.

Ann Shelley is one of Radio's own prodigies. She was discovered by Carlton Morse, author of One Man's Family, last winter in a San Francisco kindergarten. For six months he had been looking for a youngster with a "cuddly-some" voice. Ann landed the job and at the age of four began to earn "grownup" wages. In appearance she resembles Shirley Temple and is the first blonde in the One Man's Family cast.

NEW CHANGES MADE IN ASSIGNMENT OF UNITED BRETHREN MINISTERS

HARPER SERVES DISTRICT AGAIN; NEUDING NAMED

Conference Assigns New Pastors to Amanda, Hallsville Charges

CASH REPORT GOOD

Meeting Next Year to be Held in Newark Church

The Rev. T. C. Harper, pastor of the Circleville United Brethren church for the last several years was re-assigned for another year Sunday as the annual conference, held in Westerville, came to a close.

The Rev. Mr. Harper serves also as superintendent of the Circleville district which embraces the local church, Ashville, Chillicothe Circuit, Hallsville, Laurelville, Pickaway Circuit, and Amanda. The two Chillicothe churches, Tyler and First U. B., were transferred to the Hillsboro-Chillicothe district, while Amanda was added to the Circleville circuit.

E. S. Neuding Re-Named

E. S. Neuding, E. Main street grocer, was re-elected conference treasurer to serve his twenty-ninth year. The report he made at the conference was his twenty-eighth. Mr. Neuding informed the churchmen that funds for all purposes during the church year increased slightly more than 20 per cent. The Rev. P. E. Wright of Lancaster, former Circleville pastor, was re-elected conference superintendent. Next year's meeting will be at the church of Rev. A. B. Cox, another former Circleville minister, in Newark.

Few changes were made in the assignments in this district. The Rev. H. C. Elliott, who has been serving at Hallsville, was transferred to Pickerington, and The Rev. J. D. Hopper takes his place. The Rev. T. C. Gregory goes to Amanda to replace the Rev. S. J. Nishner who is assigned to Hillsboro. There he replaces the Rev. W. E. Reibel, formerly of Circleville, who becomes pastor of the Philo church in the Crooksville-Corning district.

Others Re-Assigned

Several other former Circleville pastors or former residents of this community, including B. C. Peters, W. F. Rutherford, B. C. Rife, E. W. Seymour, were assigned to their former charges.

The Rev. O. W. Smith is returned to Ashville, Melville Thornton to Chillicothe Circuit, Fred Koster to Laurelville, and Spurgeon Metzler to the Pickaway charge.

"I had a kidney weakness which caused severe pains in my back and limbs and got me up several times during the night. My appetite was poor and what little I ate did not digest well. My stomach would fill with gas and cause heartburn, acid risings and sourness.

"My liver was sluggish too because I was bilious and would frequently have dizzy spells. I never missed a day from constipation and this condition was one of my worst troubles.

"I have now taken three bottles of Vendol and can truly say it has relieved and strengthened me in
